HOW WE SHOOT YOUR WEDDING DAY

EVERY WEDDING STARTS WITH THE DETAILS

In the morning, we capture images of everything that matters to you—the small details that will evoke memories in years to come.

We begin bridal preparation by spending a few minutes photographing the wedding details, including flowers, shoes, perfume, and anything else the bride has with her in the morning. This allows everyone to become accustomed to our presence in the room with cameras.

BRIDAL PREPARATION

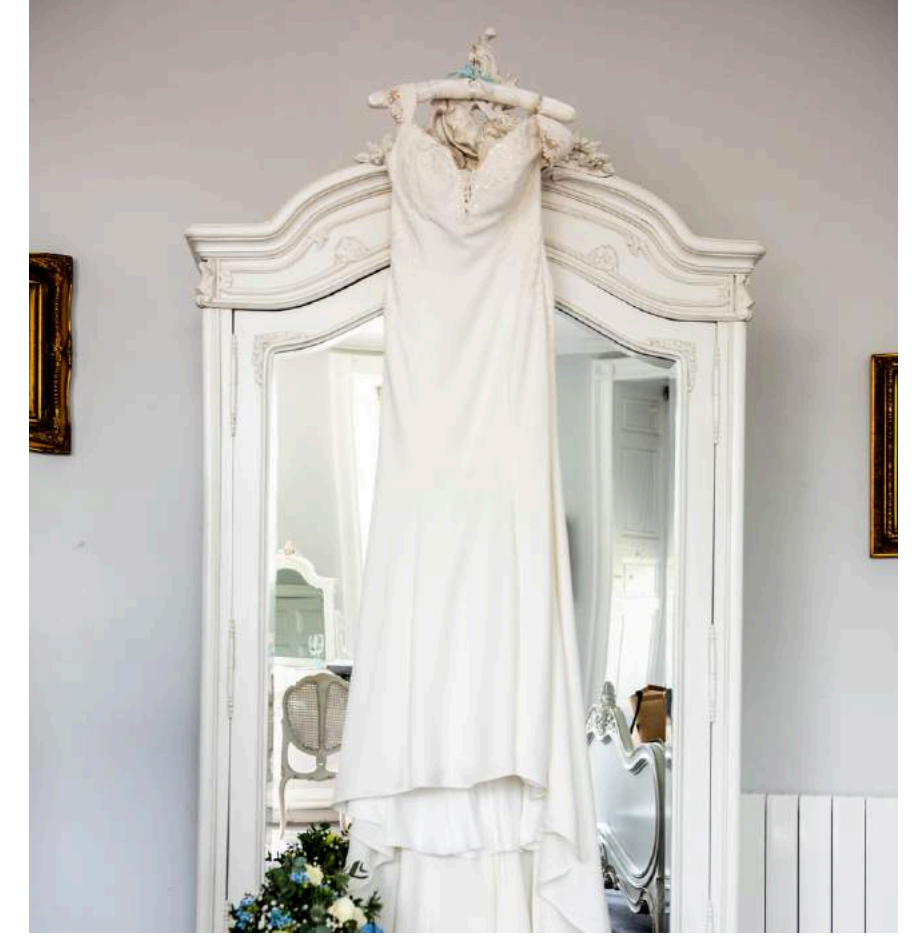

SHOES

We know just how much care and time our brides spend selecting the shoes for the day, and we take the time to capture the perfect image of them.

RINGS

We always try to capture an image of the wedding bands in the morning before the service. As we know, many brides will simply not take the ring off their finger for the rest of the wedding day.

DRESS

The wedding dress is such a major part of the day and deserves to be photographed in all its glory before the bride puts it on and makes it her own.

FUN TIME

After hair and makeup are complete, it's time to have a little fun and help everyone relax before getting into the dress.

MUST HAVE BRIDAL SHOTS

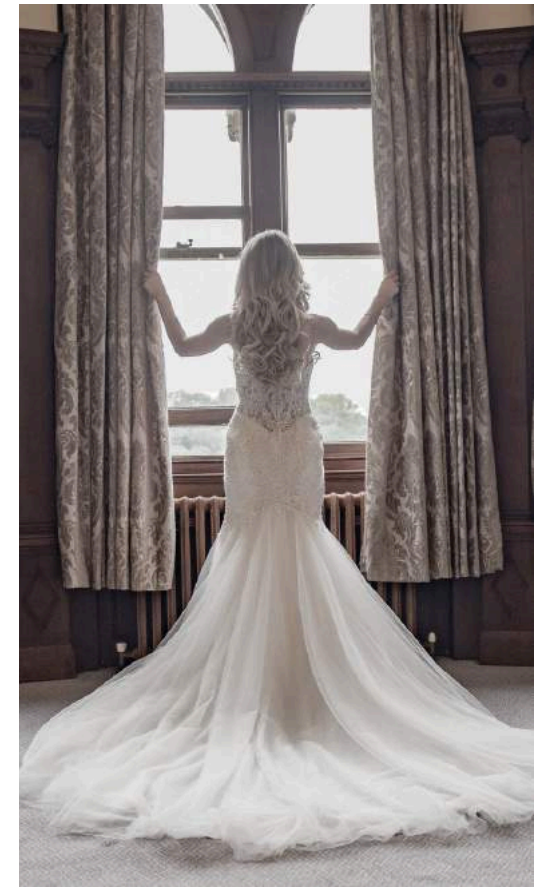

During bridal preparations, we always strive to provide our brides with a diverse selection of images. Many traditional elements, such as jewellery, will be captured after the dress is on.

TIME TO POSE

If everything has gone according to plan and the bride is in her dress, we should have a little time before the wedding coordinator escorts you to the service. During this time, we can capture a few posed images for your album, ensuring you look your very best.

GROOM LOVE SUITS

With our two-photographer package, we always ensure comprehensive groom preparation coverage. During most weddings, the groom and his groomsmen are photographed at the venue as they arrive. We capture a few well-posed images before they proceed to greet the arriving guests.

THE WEDDING SERVICE

We capture every moment of your wedding service from both the front and back of the venue.

Having two full-time photographers provides an additional benefit. One photographer remains with the bride, capturing all the little moments she experiences before walking into the room to meet her groom.

Meanwhile, the second photographer stays at the front with the groom, documenting the service as it unfolds.

CONFETTI TIME

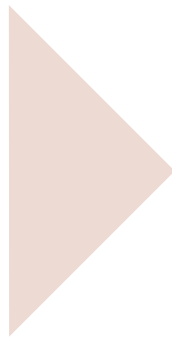

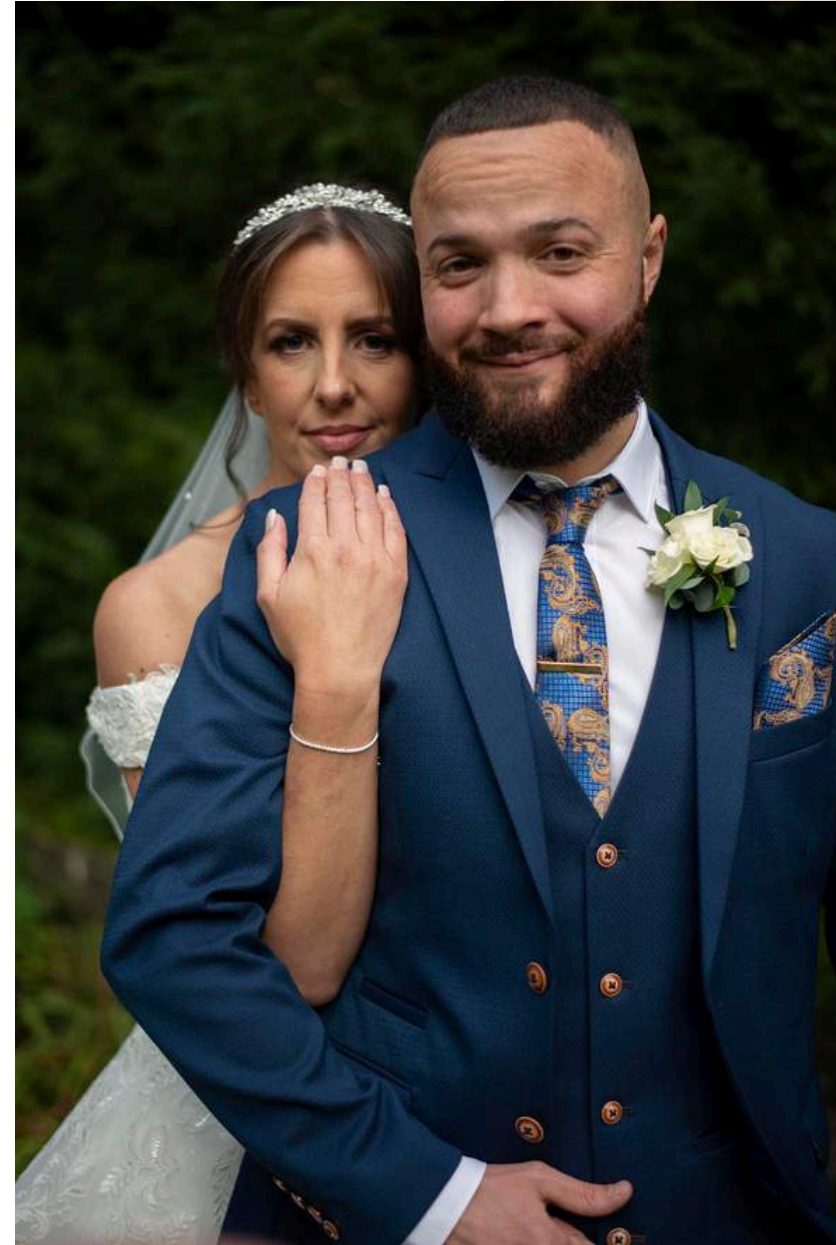

AFTER THE SERVICE:
CONFETTI AND GROUP SHOTS

FAMILY AND FRIENDS

After the ceremony, we like to capture group shots and celebrate with confetti. Our team is skilled at efficiently photographing large groups of guests and ensuring they return to the party promptly.

ROMANTIC

YOUR ROOM DECOR

Before the venue staff allow your guests into the function room to be seated, we have time to walk around the room and record just how amazing it looks.

SPEECHES

YOUR BIG ENTRANCE

When it's time to start the wedding meal, we capture your grand entrance into the room to join your guests.

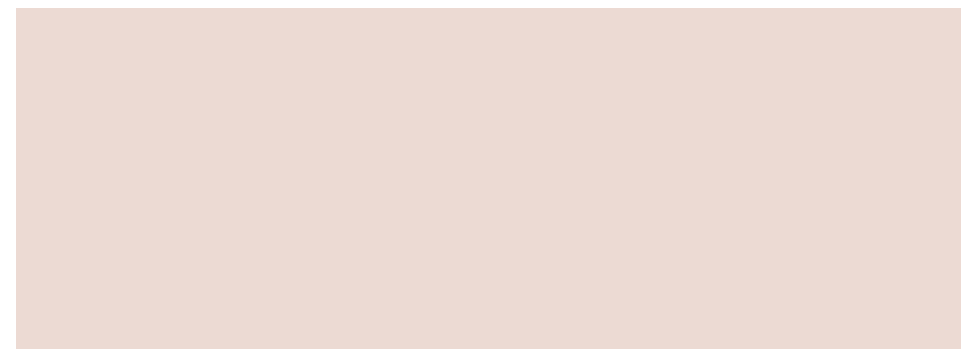

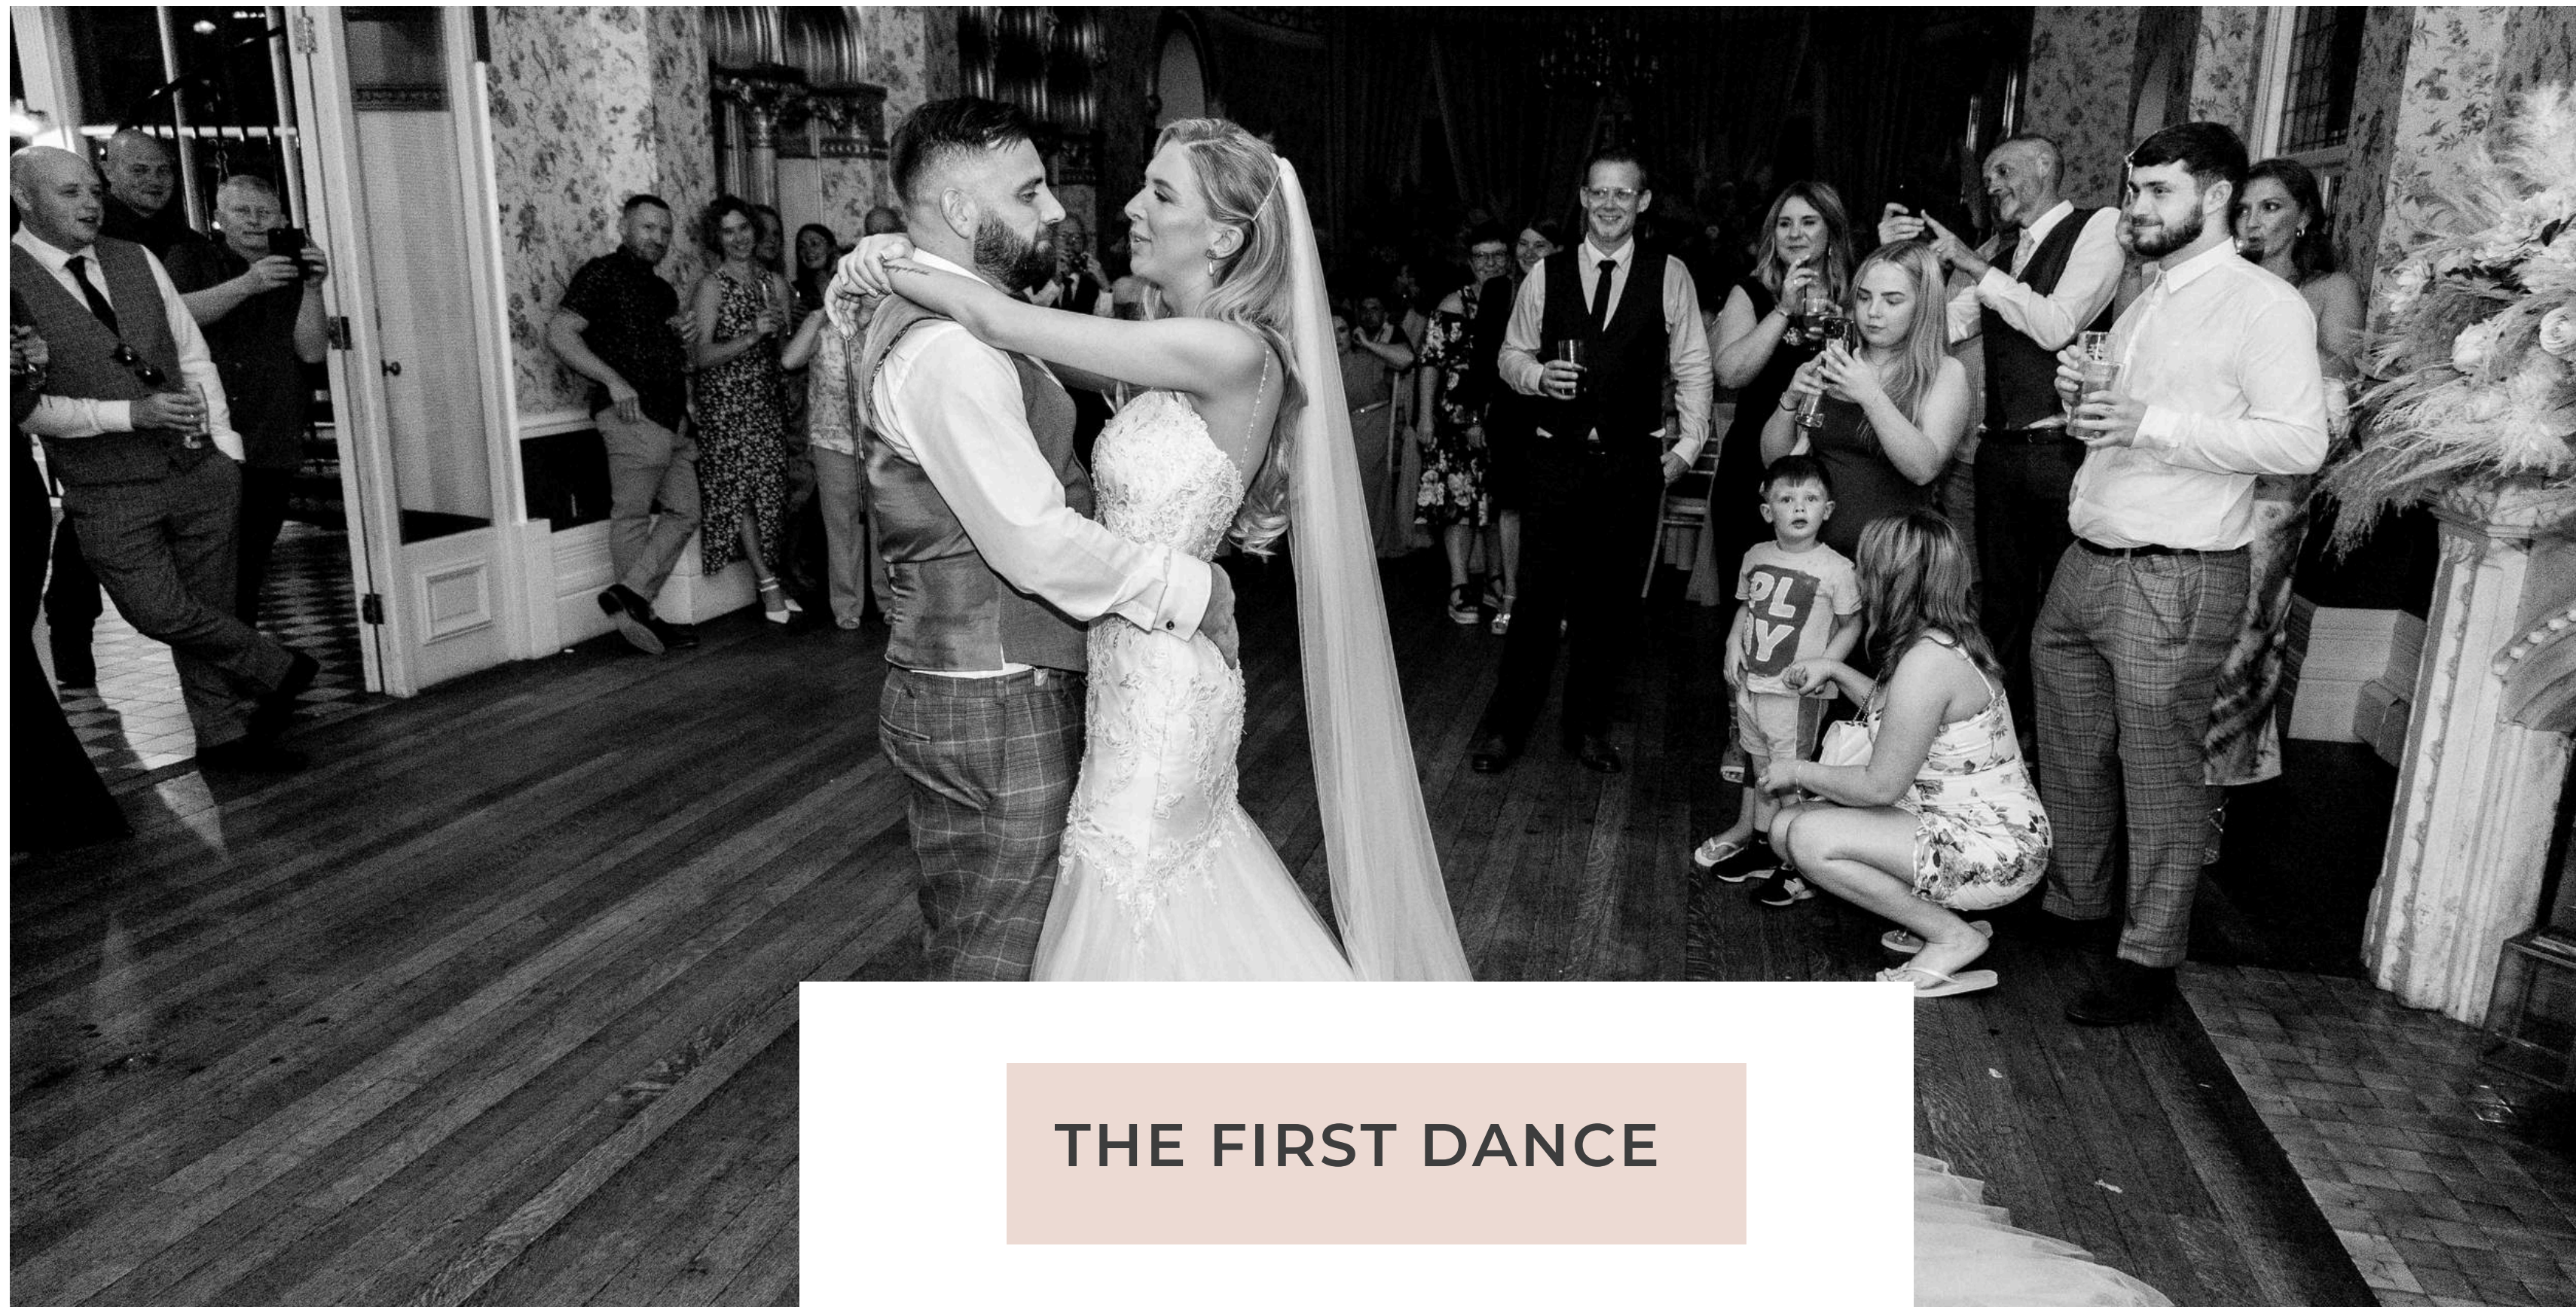

THE SPEECHES

A very nerve-wracking part of the day for many people, especially now with the new trend of bridesmaids and brides helping with speeches. We like to capture a few images of every speaker on the day.

CAKE CUTTING

Traditionally, the wedding cake is cut just before the first dance. This timing allows the venue staff to prepare and serve the cake to your guests after the first dance.

THE FIRST DANCE

THE DANCE FLOOR

We always join your guests on the dance floor after your first dance. It's a wonderful part of the evening, and if people are dancing, so are we. It's the best way to capture those lively moments.

TABLE SHOTS

During this delightful moment, we make our way around the tables where your guests are seated, capturing candid shots of them as they enjoy the celebrations. These candid photos will be cherished memories of your special day.

After the first dance, we create a memorable finale image by setting up lights and capturing a statement shot.

We'll spend about 10 minutes with you, ensuring that these images become cherished memories for you and your partner.
